Non-Toxic, Non-Absorbent and FDA approved grades of Polyethylene material is used and hence its safe use in contact with food Stuffs, Pharma Ceuticals & Drinking Water. Tanks does not impart any taste or odour. Its smooth walled inner surface and so, it is easy to clean and does not Promote Growth of Bacteria. This Makes it ideal for Water Storage.

2. BETTER STRENGTH

PURVI Tanks are made from Polyethylene and Theoretically have got infinite impact strength, therefore they are almost unbreakable.

3. INSULATING

As Polyethylene is bad conductor of heat, it keeps the water hot or cold for longer time than the Mild Steel and RCC Tanks.

4. LOW COST AND DURABLE

PURVI Tanks have got number of advantages. It costs less than M.S. Tanks, almost same as RCC. Tanks are Expected to give about three times the life of M.S. and around two times the life of RCC Tanks.

5. LEAK PROOF

PURVI Tanks are manufactured under Rotational Moulding Process and they are one Piece moulded without Seams or Joints & Hence it is a Leak Proof

6. LIGHT WEIGHT

PURVI Tanks are extremely light weight and hence easy to carry & Install.

7. EASY TO MAINTAIN

Non-Corrodng PURVI Tanks does not need painting or Anti-Corrosive treatment, it is Resistant to Ultraviolet Radiation of Sunlight and Can be safely installed out-door.

8. READILY AVAILABLE

Saves time of Construction & Eliminates delay.

9. WIDE RANGE

Available in Various Capacities From 200 LITRES to 10,000 LITRES.

10. MATERIAL
